Installation

Ableton Suite ships as a collection of 4 DVDs with a total installed size of about 37 GB.

1. Please insert the first disk, labelled "Live 7," into your computer's DVD-ROM drive to begin installing.

2. **Windows:** The Live setup application should automatically launch. Please follow the instructions on the screen to install Live. Note: If the setup application does not automatically launch, you can manually start it from the program disk by double-clicking on Setup.
Mac OS X: On the Live 7 program disk, you will find a folder named "Live 7 Mac OS X." Drag the Live 7 Mac OS X folder to the Applications folder on your computer's hard disk.

3. **Windows:** After installation is complete, you can launch Live by selecting it from the Start menu.
Mac OS X: To launch Live, locate and open the Live 7 application folder and double-click the Live icon.

4. The first time you launch Live, you will be presented with a dialog window containing instructions for unlocking the Ableton Suite.

5. Operator, Sampler, Electric, Tension and Analog will be installed automatically when installing Ableton Suite. Drum Machines, the Essential Instrument Collection and Session Drums are delivered as Live Packs which need to be installed separately. To install this content, drag the Live Packs from the DVD to Live's application window.

Register your Products

Ableton provides free online technical support, software updates and other services to registered users. Please take the time to register your products on our website at www.ableton.com/register.

Support Resources

The Ableton website offers many resources, such as free updates, tutorials, movies and a FAQ section where you can find answers to many common questions. If you cannot find answers on our website, you can contact the Ableton technical support team at **support@ableton.com.**
